

Applicant(s) : Nigel Paul Maynard
Serial No. : 10/539,685
Filed : August 9, 2006
Page : 2 of 9

Attorney Docket No.: 65501-002US1
Client Ref. No.: SHR505484-003

AMENDMENTS TO THE SPECIFICATION:

Please replace the paragraph beginning at page 14, line 32, with the following amended paragraph:

Alternatively, the target zone of the substrate is heated using radio frequency energy or microwave energy. In the case of radio frequency heating frequencies ~~wavelengths~~ of ~~less~~ greater than 2.4GHz are preferable. More specifically, frequencies ~~wavelengths~~ of approximately 27 to 40 MHz are particularly desirable.
